

## With SAP Analytics Cloud you will get smart real-time insights to your company.

Analyses, planning and forecasts are thus made possible in a simple way without having to install new software. Due to this completely web-based solution you have direct access via web browser, even mobile from anywhere and at any time. Identify patterns and trends, create stories and share them with your colleagues - or export your data as a pdf file.

## Already using SAP Business One?

Whether a live connection to your existing SAP HANA database, or connection (live/import) of various data sources - get unprecedented live insights into your company!

- Karlsruher SC
  - VEKA AG
  - koakult GmbH
  - DTM
  - KUKA AG
  - Iserlohn Roosters
- ... are only a small excerpt of the customers who trust in SAP solutions with UNIORG.
