

OKER-CHEMIE GMBH (Germany)

“SAP Business One, a powerful system where all data is easily accessible from all departments.”

“

No further data exports and imports are necessary. There is one solution with one set of data. You can get any information with individual queries and you can even export the result to an excel spreadsheet – if you absolutely must do so.

**Matthias Böhm,
IT-Manager**

Reasons for choosing SAP

- OKER-CHEMIE did have some redundant data issues caused by standalone CRM, standalone Financial System and individual kept spreadsheets.
- With SAP Business One we have found one powerful system where all data is easily accessible from all departments.
- SAP Business One has this fantastic “orange arrow” feature, allowing you to get detailed document information from even a report within seconds by just clicking.

”

Key benefits

- Data maintenance now has to be done in only one system.
 - Needed information is now easily found and presented.
 - No further data exports and imports are necessary.
 - The quantity of individual kept spreadsheets decreased by over 80 %.
- Because of these key benefits every user finds more time for essential work.
